DEPARTMENT'S PRODIGALITY

Why it Needs \$27,000 to Make Up a Deficiency

ADMITTED BY MR. TAWNEY

That the Department of Justice Had Allowed F. J. Heney Last Year \$23,000 For Which No Service Had Been Rendered.

Washington, July 19.—Representative Tawney of the appropriations committee, admitted in the house today that Francis J. Heney, had received from the government \$23,000 last year for which he performed no service. He said that Heney had received in all \$69,000 from the government.

After stating that Heney received from the government last year \$23,000 for which he performed no service, Chairman Tawney, stated that Heney's salary had nothing to do with the \$27,000 deficiency for the department of justice for which provision is made in the urgent deficiency bill. Heney, he said, received in all from the government \$69,000.

Asked by Mr. Cox of Indiana if any of this deficiency was due to the employment of special counsel to prosecute any trust, Tawney answered in the affirmative and said the suit against the tobacco trust occasioned some of it. Mr. Bennett of New York, asked that the prosecution of the turpentine trust also was responsible for a part of it.

Mr. Clark of Missouri, denounced the prosecution of incompetent district attorneys, necessitating, as he said, the employment of special counsel. The practice had grown into a habit, he said, and a very expensive one. He declared that if there had been a competent district attorney or two in the west there would not have been so much stealing of public lands.

Fearful that Heney would get a further allowance, Fitzgerald offered an amendment prohibiting it. The resolution was voted down as was one by Mr. Cullum of Indiana, prohibiting the payment of any part of the deficiency appropriation toward the employment of special counsel to assist in prosecuting Delevan Smith of the Indianapolis News and Joseph Pulitzer of the New York World, in connection with the government libel suit growing out of the Panama canal purchase.

The house began the day by passing the omnibus bridge bill, then listening to an apology by Mr. Hudson of Alabama, for having last February made some uncompromising statements about Ambassador O'Brien at Tokyo, and then further considered the urgent deficiency bill. By way of making the session especially interesting there were lively fights, one which culminated in an announcement by Mr. Macon of Arkansas, that he would resign his seat if it could be proved that he was a legislative obstructer.

The most serious discussion centered about Francis J. Heney, special assistant to the attorney general. The members were in a none too happy frame of mind when the house at 5:15 with the urgent deficiency bill still pending, adjourned.

A FRENCH AERONAUT FELL INTO THE CHANNEL

He Had Made a Good Start From Calais.

Calais, France, July 19.—Herbert Latham, French aviator, after waiting more than a week for a favorable opportunity to attempt a flight across the English channel from Calais to Dover, made a start this morning but after covering sixteen miles and while at a great height, the motor failed to work and the machine fell into the water.

The French torpedo boat destroyer Harpoon was close at hand and rescued both Latham and the aeroplane. The start was made early this morning from the top of a cliff at Sangatte under propitious circumstances. At dawn the sky was overcast and there was no wind. The crowd of onlookers numbered several thousand and Latham was high in spirits. He was not the least bit nervous and shook hands with his friends.

"I will see you in Dover," said he. He was clad in knickerbockers and wore a life preserver.

When he started the eight-cylinder motor the white wings of the monoplane spread out gracefully and the machine ascended until it was 300 feet above the sea.

Latham started straight for the English side at the rate of thirty miles an hour. Torpedo boats and tugs were strung out in a line along the horizon. The Harpoon kept pace with the aeroplane which often for fifteen min-

utes disappeared. An Associated Press correspondent was on the Harpoon.

Latham received a tremendous ovation when he returned and was kissed by the girls, who threw their arms around him. His machine was badly damaged.

HENEY'S ALASKAN TRIP.

He Cabled Instructions to His Subordinates in the Calhoun Trial.

Cordova, Alaska, July 19.—After making a trip over the Copper River & Northwestern railway, Francis J. Heney today went with S. W. Eccles, president of the road, on a fishing expedition.

This morning Heney cabled instructions to his associates at San Francisco to go ahead with the Calhoun trial without waiting for his return. Heney said there would be no let up of the Calhoun prosecution on account of the approaching November election.

THE COUNTRY'S SAVINGS.

There is \$380,494,598 in the National Banks Alone.

Washington, July 19.—An aggregate of \$380,494,598 in savings deposits in the national banks of the country is shown in the report issued by the comptroller of the currency today on the returns from the national banks under call for their condition on June 23.

There were 6,926 banks which made reports under the call, an increase of 102 over the number that reported July 15, 1908.

THE WELLS TRIAL ENDING.

Rosewell, N. M., July 19.—The trial of W. C. Wells on the charge of killing Ollie Shirley as the result of a labor quarrel, neared its close today when the prosecution rested.

Wells, who is a wealthy citizen, was arrested following the death of Shirley, who was a labor leader.

THE CALHOUN TRIAL UNDER WAY AGAIN

INCREASED DIFFICULTY OF SECURING A JURY.

Citizens of San Francisco Escape By Any Pretext.

San Francisco, July 19.—Patrick Calhoun, president of the United Railroads, is again on trial in this city on the charge of offering a bribe to public officials to gain a privilege for his corporation. Half a day had been devoted to the interrogation of prospective jurors when the first panel of twenty-five citizens was exhausted and an adjournment was taken until next Wednesday morning.

Two dozen talesmen had been examined when the end of the day came. A majority of the talesmen were challenged or excused because of fixed opinions relating to the guilt or innocence of the defendant, and seven of them out of twenty-four were disqualified by reason of their connection with previous trials where alleged bribery in the overhead trolley deal was the issue.

It is evident from today's examination that most of the talesmen summoned were anxious to escape service in the case on any pretext, and a few questions sufficed to disqualify in several instances.

Heney is expected to assume charge of the case when he returns from his trip to Alaska, and John O'Garra, his colleague in the first trial, will retain his former position.

Mr. Calhoun was represented today by A. A. Moore, Stanley Moore, L. F. Byington, John J. Barrett and William P. Abbott. Neither Alexander King, or Earl Rogers, of Los Angeles, both of whom assisted in the defense at the last trial, were on hand today.

The second trial will be based on an indictment charging that Calhoun offered a bribe of \$4,000 to John J. Furey, member of the board of supervisors during the administration of Schmidt.

HE WAS TOO IMPATIENT

He Hadn't Time to Wait on the Dynamite.

San Diego, July 19.—Standing over an unexploded charge of dynamite to see why it failed to go off, J. W. Cates, aged fifty-one years and one of the wealthiest residents of the valley, fifteen miles east of here, was blown up and died an hour later. He was excavating the foundation for a house when the charge of dynamite failed to explode and he investigated. It blew him fifty feet into the air. He arose and staggered to the doorway of his home, 100 yards away, where he fell dying.

PHILADELPHIA OUT OF IT.

Philadelphia, Pa., July 19.—The annual tri-city golf match between New York, Boston and Philadelphia, which was to have been played on the links of the Whitemarsh Country club in this city, during the first week of October, will not be played there. The links were laid out a year ago and it has been found now that it will be impossible to get them in good enough condition in time for the big event to merit championship play. The committee which has charge of selecting the grounds recommends the Huntington Valley links as the next best in favor. In the event of dissatisfaction over the latter links, it is likely that the three-sided struggle will take place on the Philadelphia Country club's links. This course is known to most of the contestants, as it has been the scene of several inter-city matches.

TABLE TALK AT DINNER

Mr. Taft Will Have Tariff Conferees at White House

PRESIDENT IS AGGRESSIVE

It Is Said That He Will Insist on His Free Raw Material Program—There Is No Discussion of the Probability of a Veto.

Washington, D. C., July 19.—All the republican members of the tariff conference committee have been invited by President Taft to take dinner with him on Wednesday night at the White House. It is assumed that the president expects to be ready to report progress in getting votes for the abolition or reduction of duties on raw materials.

When Mr. Cannon left Mr. Aldrich's room tonight he said the conference must frame a program for passing the conference report, and that representatives would have to assume the responsibility for their actions. There was no indication of a lack of understanding between the leaders of the senate and the house. The speaker talked freely with newspaper men about every subject except that which they desired to hear him discuss.

Many progressivists came from states interested in cattle raising and they oppose free hides, or even a reduction in duty. Messrs. Bristow and Cummins expressed the opinion that the president should bring his influence to bear in a movement looking to reductions in duties on wool and woolen goods, cotton goods and their articles which enter into wearing apparel.

Mr. Borah declared that if the free raw material program was adopted some of the western senators would be afraid to go home, and could not expect to continue holding their positions. Mr. Borah is authority for a report that there is in progress of organization a combination of senators who will be pledged to support the conference report if it provides for free coal and free hides.

It was persistently reported today that the president would not be satisfied with free iron and oil, and reduced duties on coal, hides and lumber. No one suggested the possibility of a veto. In the conflicting views of the president's position exchanged at the capital today. Among the older congressmen it was predicted that the president would demand every concession possible to obtain, without endangering the adoption of the report.

Today the conferees devoted their attention mainly to the revised corporation tax provision which was adopted. An effort was made today to dispose of the wood pulp and print paper schedule. The retaliatory provision concerning pulp wood was re-written and it is now believed it will prove satisfactory to the American mills. The duty on print paper is still in controversy.

WILL SETTLE STEEL STRIKE BY PEACEFUL METHODS

The Strikers Have Been Advised Against Further Violence.

Butler, Pa., July 19.—Following advice, the striking employees who have been tending toward violence, during the next twenty-four hours will endeavor to end the strike by peaceful means. This decision was reached today after the strikers had been refused permission to hold a mass meeting. For a time the men have been curbed by the mounted troopers of the constabulary that no meeting would be tolerated, and it looked as if serious trouble was imminent.

Attorney Levi M. Wise and Father Baczewski, a Catholic priest, however, prevented the crisis by calm counsel.

The hearings of the arrested strikers were postponed on the motion of the district attorney.

TWO GREAT VOLUME OF BONDS

Likely to Impair the Credit of the Nation.

Washington, July 19.—How to protect from serious depreciation of the outstanding United States bonds is an intricate problem that confronts congress in connection with the authorization of the new issue and it is thought a solution must come through some equitable adjustment of the tax on circulation. Reference is had to the Panama 3 per cent bonds and seven hundred million other outstanding two per cent bonds. The tax on national bank notes based on two per cent bonds is 1 1/2 per cent per annum while on 3s it is but 1 per cent. It is feared that the public credit may be impaired unless adjusted.

AUTHORITY TO COMPLETE THE A. & C.

Full authority to proceed with the work of carrying on the construction of the Arizona & California railroad was received by General Manager Drake at Prescott yesterday and the work will begin at Parker in September and be carried on without cessation to Bengal on the Santa Fe Pacific.

All this had been definitely understood before and it had been announced that work would be resumed as soon as climatic conditions in that part of the country became favorable, but the announcement was made for the first time yesterday on complete authority.

It has been estimated that the work will require about six months. There is no heavy work on the line, so that direct connection between Phoenix and the coast will probably be established by March 1.

This authorization is the result of a conference between President F. M. Murphy with President Ripley and other Santa Fe officials at Chicago, where Mr. Murphy stopped on his way home. He left Chicago last night for Prescott.

DEMOCRATIC ORGANIZATION

For the Conduct of the Next Congressional Campaign.

Washington, July 19.—The Democratic congressional campaign committee tonight chose Representative James T. Lloyd of Missouri, chairman. W. E. Finley of South Carolina, was elected first vice chairman, and Lincoln Dixon, of Indiana, secretary.

THE NEW CAMPAIGN AGAINST PREST. MOYER

It Is Now Proposed to Abolish His Office.

Denver, July 19.—The supporters of P. W. Flynn of Butte, laid the foundation for their fight against President Moyer at today's sessions of the Western Federation of Miners' convention. The program includes the abolishment of the offices of president and vice president, the creation of a new non-salaried executive board, consisting of one member from each state and one salaried officer, that of secretary-treasurer.

The report of the executive board member, Yanco Terziech, of Alaska, contained a review of the strike situation in the Treadwell district. He charged that the Guggenheim interests are importing men by the hundreds, overstocking the market and following this with a reduction of wages.

The Moyer forces again defeated the "insurgents" by refusing to consider resolutions providing certain changes in the constitution.

THE SUTTON REHEARING

A Dramatic Representation in Yesterday's Inquiry

FATAL STRUGGLE ENACTED

Discrepancies in Testimony of Lieut. Adams, a Classmate of Sutton, and Whom the Supposed Suicide Had a Fight.

Annapolis, July 19.—The opening session here today of the court of inquiry conducting a second investigation into the death of Lieutenant James N. Sutton, of the United States marine corps, was replete with dramatic situations. Lieutenant Robert E. Adams, Sutton's former classmate at the academy, and one of the principal actors in the midnight fight which cost young Sutton his life nearly two years ago, told a graphic story.

With nervous demeanor and yet almost defiant, under the severe cross examination of Henry E. Davis, counsel for Mrs. Sutton, mother of Lieutenant Sutton, Adams sat facing Sutton's mother and sister during the examination. At one point Lieutenant Adams and an orderly enacted the struggle with Sutton. The witness' chair was removed and they both lay prone upon the floor. The witness was still under cross examination when the inquiry adjourned until tomorrow.

Davis succeeded in bringing out a number of discrepancies in Adams' testimony compared with his version of the tragedy at the former investigation, when the board of inquiry found that Sutton had committed suicide.

Adams testified regarding a ride to the marine camp in an automobile with Sutton and two officers of marines, Lieutenants Utley and Osterman, an altercation between Sutton and the witness, and a deferred encounter when the senior officer interfered, a later accidental meeting of the witness and Sutton on the border of the woods near the barracks, and the fight between the two men with Sutton armed with a revolver in either hand and firing five shots, the last of which he directed at his own head while lying on the ground. Adams said he had risen from the prostrate Sutton, whom he believed to be exhausted and he saw Sutton raise his right hand and fire a bullet into his own head. Just previously an officer had cried that Lieutenant Edward P. Roelker had been shot and killed, the witness said.

After the session Davis said it was not his intention to fasten the responsibility of Sutton's death on any one, but every effort would be made to discredit and refute the suicide story.

PROPOSED RELIEF FOR ARIZONIANS

New Bills Introduced Yesterday by Delegate Cameron.

Washington, July 19.—(Special.)—Delegate Cameron today introduced bills in the house as follows: Authorizing the president to issue a proclamation to set aside land in Santa Catalina mountains as a game preserve; a bill granting a pension of \$12 a month to Jacob Mitchell, of Phoenix; a bill allowing the claim of Frank H. Hands, of Paradise, for loss sustained by a raid of renegade.

HIT BY MOTOR CAR

Prominent San Diego Ladies Fatally Hurt.

San Diego, July 19.—While attempting to cross a railroad crossing in front of the La Jolla motor car, just before noon seven passengers in an automobile were struck and some of them fatally hurt. Mrs. L. L. Hubbard, wife of General Superintendent Hubbard of the Santa Fe coast line was probably fatally injured. Mrs. E. B. Stuart, of San Diego, wife of the local freight agent of the Santa Fe was injured internally. Mrs. Eleanor Hudson, mother of Mrs. Hubbard, is thought to be fatally hurt. Three others as yet unknown as now at the hospital seriously injured.

FURTHER BREAK IN COTTON

New York, July 19.—There was another sensational break in the cotton market today with cotton for December delivery closing at 11.77, or 35 points below the final quotation of Saturday and 119 points, or \$5.50 below the high record of last Tuesday.

AMERICAN WOMEN WANT STRAIGHT GOODS

THEIR INTEREST IN QUESTION "WHAT IS WHISKY?"

General Federation of Women's Clubs at Work.

Washington, July 19.—By reason of briefs from lawyers and letters from women whose attention had been directed to the fight over "what is whisky," President Taft is forced to remember the subject even when wrestling with the tariff.

Purity and quality in "wet" goods are what the women who are writing the president want. They do not set themselves up as a rule as consumers of the commodity, nor are they prepared to subscribe to the sentiment that all whisky is good. What they seek is to have the president in an "address" adhere to the ruling of former President Roosevelt that straight whisky, made from the distillation of grain, is the only form in which it meets the requirements of the pure food act.

The crusade of the women was started by Mrs. Beulah Amidon, chairman of the food and sanitation committee of the General Federation of Women's Clubs of the United States. She sent circulars to every woman's club in the country asking members to write the president. If there is any truth in rumor, most of them have done so. Tomorrow is the time limit set by the president for the whisky men to file their briefs in the case.

MEXICO'S MERGED LINES

In Danger of a Complete Tie-Up by Telegraphers, Conductors and Engineers.

Mexico City, July 19.—Reports from all parts of Mexico indicate that the sentiment in favor of a strike with that of the train dispatchers by the engineers and conductors of the merged railroads in Mexico, is rapidly crystallizing. Many telegraphers declare that the engineers and conductors will leave their posts if necessary.

TURKISH HANGINGS.

Constantinople, July 19.—Thirteen persons who were concerned in the recent revolution were hanged here today. They included Choke, El Mehmid, Yusuf Pasha, former commander of the troops at Erzeroum, and Sheikh Validdi. The court martial acquitted Ikdam.
